## Experience Letter/Reference Letter

Vienna, AT | 16 August 2025 ,

This is to certify that **Mr. Rishikesh BANORE** worked with us as a **Test Automation Engineer** from **02 November 2023** to **31 August 2025**. During this tenure, he made outstanding contributions in strengthening the quality and reliability of our software products.

Some of the key responsibilities and achievements include:

- Played a pivotal role in ensuring product quality by meticulously analyzing acceptance criteria, designing comprehensive test cases, and executing them with precision.
- Demonstrated strong ownership in identifying defects early, significantly improving the quality of product releases.
- Introduced **Playwright** as the preferred tool for web automation and successfully designed frameworks using both **C#** and **TypeScript**.
- Developed and maintained automated test scripts for both **UI and API testing**, seamlessly integrating them with the CI/CD pipeline to ensure faster and more reliable deployments.
- Generated complex test data to support thorough testing of application functionalities, enhancing coverage and reliability.
- Developed and executed performance tests with JMeter and Azure Load Test to validate system performance and reliability.
- Collaborated closely with Product Owners and Requirements Engineers to refine acceptance criteria, ensuring that business needs were thoroughly validated.
- Assisted Product Owners in acceptance testing by providing detailed and transparent test evidence for user stories.

In addition to his role as a Test Automation Engineer, **Mr. Rishikesh BANORE** also successfully fulfilled responsibilities as **Product Owner/Project Manager** for several internal projects.

Some of the key contributions include:

- Effectively leading efforts in planning, execution, and delivery of application functionalities.
- Collaborating closely with stakeholders to provide effort estimations, secure necessary budget approvals, and prioritize features and enhancements.
- Managing user requests systematically and presenting them to stakeholders for review and approval.
- Creating and refining user stories and collaborating with other Product Owners and stakeholders to ensure effective planning and resource utilization.

Throughout his employment, **Mr. Rishikesh BANORE** consistently showcased technical excellence, proactive ownership, team spirit and exceptional collaboration skills.

We wholeheartedly thank him for his contributions and recommend Mr. Rishikesh BANORE for any future endeavors.

Yours Sincerely,

Micheal Reisinger  
Engineering Lead
